THE STORY SHARING GAME (10) SCORING QUESTIONS

To Reveal The StoryTellers Who Moved Us Most

Each Player Starts With (10) Chips Or Points

READ ALOUD & ANSWER QUESTIONS

Every Player repeats the question aloud and announces which StoryTeller's Story best answered the question, with a brief explanation of what in the Player's Story impressed them. (If playing with chips a chip is given out.)

1. Whose story surprised you the most ?
2. Which StoryTeller best used their voice and body when telling their story to pull you in / entertain ?
3. Which story made you think of one of your own memories ?
4. Who included the most interesting details about their story's time period, setting, props, and / or wardrobe ? *(So you could see their story !)*
5. Who described the most vivid characters who you can easily imagine as people ? *(If the story includes people you know, imagine only knowing them as described in story – did the storyteller create a vivid impression of them?).*
6. Who amused or charmed you most or made you laugh ?
7. Who told the most emotional / touching story ?
8. Who had the best line or description that you still remember clearly ?
9. Which story can you imagine most as a short film ?
10. Which story left you with the most questions ? This point goes to:

The StoryTeller who was the most confused / awkward when sharing their story. Give them a chip and tell them you celebrate their playing the Game, even when reluctant, and you hope to play with them again. *(All StoryTellers pledge to encourage other developing StoryTellers !)*

If there was no reluctant StoryTeller then give the Chip to:

The Storyteller who told the most intriguing story that had you wondering about what happened before and / or after the time of their story !
