### A HANDS-ON, BUDGET-FRIENDLY INTRO TO FILMMAKING !

Explore every stage -- from script development, production prep and team building, directing and shooting, to fine tuning the story in post-production editing – while discovering the many jobs and talents that bring a film to life. Perfect for self-taught filmmakers looking to step back from the responsibilities of your own projects and instead focus on truly learning the process with space to ask all your pressing questions.

### BEGINNING SHORT SCRIPTWRITING CLASS w/ Trayce

You'll learn the fundamentals of scriptwriting, from mastering proper format to crafting multi-dimensional characters and compelling storylines that engage and surprise audiences.

**ASSIGNMENT:** Craft a compelling story set in a single location with just two to three characters, using strong visual imagery to bring it to life. You'll write two drafts of your script, receiving in-depth feedback and suggestions from the instructor and bouncing off fellow students in Writer's Room-style brainstorming sessions.

### PRE-PRODUCTION & PRACTICE FILM SHOOT CLASS w/ Trayce & A1 Day1 Productions

*A Crash Course In The Creative, Technical, & Team Process  
Of Making A No-Budget Short Film !*

Assuming the roles of Writer / Director, Trayce, draws on a student story idea to demonstrate how to craft a new story that has complex characters with layered relationships; a dynamic and believable storyline with clear themes; and vivid visuals. Actors are recruited and rehearse. Students become crew. A1 Day1 Productions teaches an introduction to camera, lighting, and sound, and then shoots the practice film. Students later can view raw footage and receive Editing Notes.
